

OFFER OF EMPLOYMENT

Date: 13 August, 2026

To,
Mr. Sheikh Faheem Ahmed

Subject: Offer of Employment – Software Development Engineer

Dear Mr. Sheikh Faheem Ahmed

We are pleased to extend to you an offer of employment for the position of **Software Development Engineer** at **ALGOORBIT INNOVATIONS PRIVATE LIMITED**.

Your technical capabilities, problem-solving approach, learning mindset, and potential to contribute to technology-driven initiatives have been considered in our selection process. We believe your skills and aspirations align well with the engineering culture and growth objectives of ALGOORBIT.

As a Software Development Engineer, you will have the opportunity to work on real-world software products, engineering initiatives, and technology solutions while collaborating with our team to build reliable, scalable, and impactful solutions.

We look forward to having you as part of our engineering team and to your contribution towards building the next generation of technology solutions at ALGOORBIT.

EMPLOYMENT DETAILS

Particulars	Details
Position	Software Development Engineer
Department	Technology
Reporting To	Managing Director
Joining Date	August 17, 2026
Work Location	Karkala / As Assigned by the Company
Annual CTC	₹2,50,000/- per annum
Working Days	Monday to Friday (or as per company requirements)

The stated CTC is subject to applicable statutory deductions, taxes, and Company policies.

YOUR ROLE

As a Software Development Engineer, you will be responsible for contributing to the design, development, testing, deployment, and continuous improvement of software applications and technology products undertaken by the Company.

You will be expected to demonstrate strong engineering fundamentals, ownership of assigned responsibilities, attention to quality, and a continuous learning mindset.

Your role may involve working across different technologies, products, projects, and development environments based on organizational requirements.

KEY RESPONSIBILITIES

- Design, develop, test, debug, and maintain software applications and services.
- Translate functional and technical requirements into reliable software solutions.
- Write clean, maintainable, efficient, and production-ready code.
- Participate in software architecture, technical discussions, code reviews, and development planning.
- Develop and integrate REST APIs, databases, third-party services, and application components as required.
- Identify, investigate, and resolve software defects and technical issues.
- Perform unit testing, integration testing, debugging, and performance optimization.
- Collaborate with designers, developers, project teams, and other stakeholders to deliver project requirements.
- Participate in deployment, maintenance, monitoring, and continuous improvement of applications.
- Follow established coding standards, development practices, documentation standards, and security guidelines.
- Maintain appropriate technical documentation for assigned applications and components.
- Research and evaluate emerging technologies where relevant to Company projects.
- Take ownership of assigned deliverables and ensure timely completion with appropriate quality.
- Contribute ideas and improvements towards products, internal systems, engineering processes, and innovation initiatives.
- Perform other reasonable duties and responsibilities assigned by the Company in connection with your role.

ENGINEERING EXPECTATIONS

At ALGOORBIT, engineering is driven by **ownership, quality, learning, and impact.**

As a Software Development Engineer, you are expected to:

Build with Ownership

Take responsibility for your work from understanding the requirement through development, testing, deployment, and maintenance.

Think Beyond the Code

Understand the business requirement, user experience, performance, reliability, and long-term maintainability of the solutions you build.

Learn Continuously

Stay current with relevant technologies, engineering practices, tools, and industry developments.

Deliver with Quality

Write software that is secure, maintainable, testable, scalable, and aligned with established engineering standards.

Collaborate Effectively

Communicate clearly, participate constructively in technical discussions, and contribute to a positive engineering environment.

Solve Problems

Approach technical challenges analytically and demonstrate initiative in identifying and implementing effective solutions.

CONFIDENTIALITY

During your employment, you may have access to confidential information relating to the Company's business operations, software, source code, clients, products, documentation, and other proprietary information.

You agree to maintain strict confidentiality during and after your employment and shall not disclose, reproduce, or use such information without prior written authorization from the Company.

You are also expected to follow all applicable Company information-security, data-protection, access-control, and technology usage policies.

INTELLECTUAL PROPERTY

All software, source code, applications, designs, technical documentation, algorithms, databases, research materials, inventions, improvements, processes, concepts, reports, and other work products created, developed, modified, or contributed to by you in connection with your employment shall, to the extent permitted by applicable law, belong exclusively to **ALGOORBIT INNOVATIONS PRIVATE LIMITED**.

You agree to promptly disclose relevant work products and execute reasonable documentation required to establish or protect the Company's rights in such intellectual property.

You shall not use, distribute, commercialize, reproduce, or disclose Company-owned intellectual property for personal or external purposes without prior written authorization.

PROFESSIONAL CONDUCT

You are expected to maintain the highest standards of professionalism, integrity, discipline, and ethical conduct throughout your employment.

You shall:

- Comply with Company policies, procedures, and reasonable instructions.
- Maintain punctuality and professional communication.
- Respect colleagues, clients, partners, and stakeholders.
- Protect Company assets and information.
- Avoid conflicts of interest.
- Maintain confidentiality of Company and client information.
- Use Company systems and resources responsibly.
- Maintain professional standards in all internal and external interactions.

Any misconduct, unauthorized disclosure of confidential information, misuse of Company resources, violation of Company policies, or conduct detrimental to the interests of the Company may result in appropriate disciplinary action.

WORKING HOURS AND ATTENDANCE

You are expected to maintain regular attendance and comply with the Company's working hours and attendance policies. Work schedules may be modified based on business and operational requirements. All leave or absence must be communicated to and approved by the Head of Technology.

PERFORMANCE AND CAREER GROWTH

At ALGOORBIT, career growth is closely associated with **performance, ownership, capability, and impact.**

Your performance may be reviewed periodically based on your contributions, technical growth, quality of work, delivery, collaboration, initiative, and overall professional development.

Performance reviews may be considered for:

- Compensation revisions
- Increased responsibilities
- Role progression
- Leadership opportunities
- Participation in strategic projects
- Other career development opportunities

Any such progression shall be subject to Company requirements, performance, and management decisions.

COMPANY POLICIES

Your employment shall be governed by the policies, procedures, guidelines, and standards of **ALGOORBIT INNOVATIONS PRIVATE LIMITED** as applicable from time to time.

The Company reserves the right to introduce, modify, or update its policies and procedures in accordance with organizational and legal requirements.

You are expected to familiarize yourself with and comply with all applicable policies.

TERMINATION OF EMPLOYMENT

Either party may terminate the employment by providing the applicable notice period as per the Company's policies and terms of employment.

The Company reserves the right to terminate employment in cases of serious misconduct, breach of confidentiality, policy violations, intellectual property violations, or persistent unsatisfactory performance, subject to applicable law.

Upon separation, you shall return all Company property, data, documents, and access credentials in your possession.

PRE-EMPLOYMENT INFORMATION

This offer is based on the information and representations provided by you during the recruitment process.

The Company reserves the right to verify relevant educational, professional, employment, and other information provided by you, where applicable.

Any material misrepresentation, concealment of relevant information, or submission of fraudulent documentation may result in withdrawal of this offer or termination of employment, subject to applicable law.

ACCEPTANCE OF OFFER

We are pleased to welcome you to **ALGOORBIT INNOVATIONS PRIVATE LIMITED**.

This opportunity represents the beginning of your journey as a professional engineer with the organization. We expect you to approach your role with curiosity, ownership, integrity, and a commitment to building meaningful technology.

Please sign and return a copy of this letter as confirmation of your acceptance of the offer and the terms contained herein.

We look forward to your contribution and wish you a successful and rewarding career with ALGOORBIT.

Yours sincerely,

For **ALGOORBIT INNOVATIONS PRIVATE LIMITED**

Nishan H Kamath
Managing Director & CEO
